

ARM-450 rev I -- whole arm, every part and every screw, opaque

J1 base yaw -- every part opaque in its own colour, black edges (3D, exact solids)

isometric

side (along the cut normal)

front

CUT-AWAY through the joint plane

J1 base yaw -- EXACT SECTION (OpenCascade): red = solids intersecting, orange = designed (pinch / thread), green = faces touching, blue = gap < 1 mm

J1 base yaw -- interfaces zoomed (+/-4 mm): measured on the exact section

J2 shoulder -- every part opaque in its own colour, black edges (3D, exact solids)

isometric

side (along the cut normal)

front

CUT-AWAY through the joint plane

J2 shoulder -- EXACT SECTION (OpenCascade): red = solids intersecting, orange = designed (pinch / thread), green = faces touching, blue = gap < 1 mm

J2 shoulder -- interfaces zoomed (+-4 mm): measured on the exact section

J3 elbow -- every part opaque in its own colour, black edges (3D, exact solids)

isometric

front

side (along the cut normal)

CUT-AWAY through the joint plane

J3 elbow -- EXACT SECTION (OpenCascade): red = solids intersecting, orange = designed (pinch / thread), green = faces touching, blue = gap < 1 mm

**in this cut: 30 parts, 29 touching pairs, 21 gaps < 1 mm,
0 designed overlaps, 0 UNDESIGNED OVERLAPS**

J3 elbow -- interfaces zoomed (+/-4 mm): measured on the exact section

J4 forearm roll -- every part opaque in its own colour, black edges (3D, exact solids)

isometric

front

side (along the cut normal)

CUT-AWAY through the joint plane

J4 forearm roll -- EXACT SECTION (OpenCascade): red = solids intersecting, orange = designed (pinch / thread), green = faces touching, blue = gap < 1 mm

- servo_J4

**in this cut: 11 parts, 10 touching pairs, 2 gaps < 1 mm,
0 designed overlaps, 1 UNDESIGNED OVERLAPS**

J4 forearm roll -- interfaces zoomed (+/-4 mm): measured on the exact section

J5 wrist pitch -- every part opaque in its own colour, black edges (3D, exact solids)

isometric

side (along the cut normal)

front

CUT-AWAY through the joint plane

J5 wrist pitch -- EXACT SECTION (OpenCascade): red = solids intersecting, orange = designed (pinch / thread), green = faces touching, blue = gap < 1 mm

in this cut: 13 parts, 14 touching pairs, 9 gaps < 1 mm,
1 designed overlaps, 0 UNDESIGNED OVERLAPS

J5 wrist pitch -- interfaces zoomed (+/-4 mm): measured on the exact section

J6 tool roll -- every part opaque in its own colour, black edges (3D, exact solids)

isometric

side (along the cut normal)

front

CUT-AWAY through the joint plane

J6 tool roll -- EXACT SECTION (OpenCascade): red = solids intersecting, orange = designed (pinch / thread), green = faces touching, blue = gap < 1 mm
